- **Halooooo...?** Dzień dobry. Tu kotka Miła. Nasz kolega utyłł się bardzo. Czy moglibyście przysłać strażaków, żeby umyli Bazyla sikawką?

- Mowy nie ma! - zagrzmiął głos w słuchawce. - Straż pożarna jest od gaszenia pożarów, a nie mycia brudnych kotów! Poza tym jak nam się zabrudzi woda w sikawce, a od tej wody cały wóz bojowy, to dopiero będzie kałabania! Do widzenia!
- No to klops... - Miła westchnęła zrezygnowana.

Posprzątały. Kot zrobił się czystuśki.

Uff... sytuacja opanowana.

Niestety - po chwili odkurzacz kichnął, prychnął, chrząknął, stęknął i... Jak nie prychnie, jak nie buchnie! Wszyscy zrobili się brudni - kociaki, mieszkanie i słonko. Wszędzie tumany kurzu, nawet chmury wyglądały jak wielkie kosmate kocmołuchy!

In the “Interesting...” series we present
jobs that children dream of!

We show how women and men do interesting, hard, fascinating, and sometimes dangerous activities as part of their jobs. We place **special importance on gender equality**, so that no reader, be they a boy or girl, feels excluded.

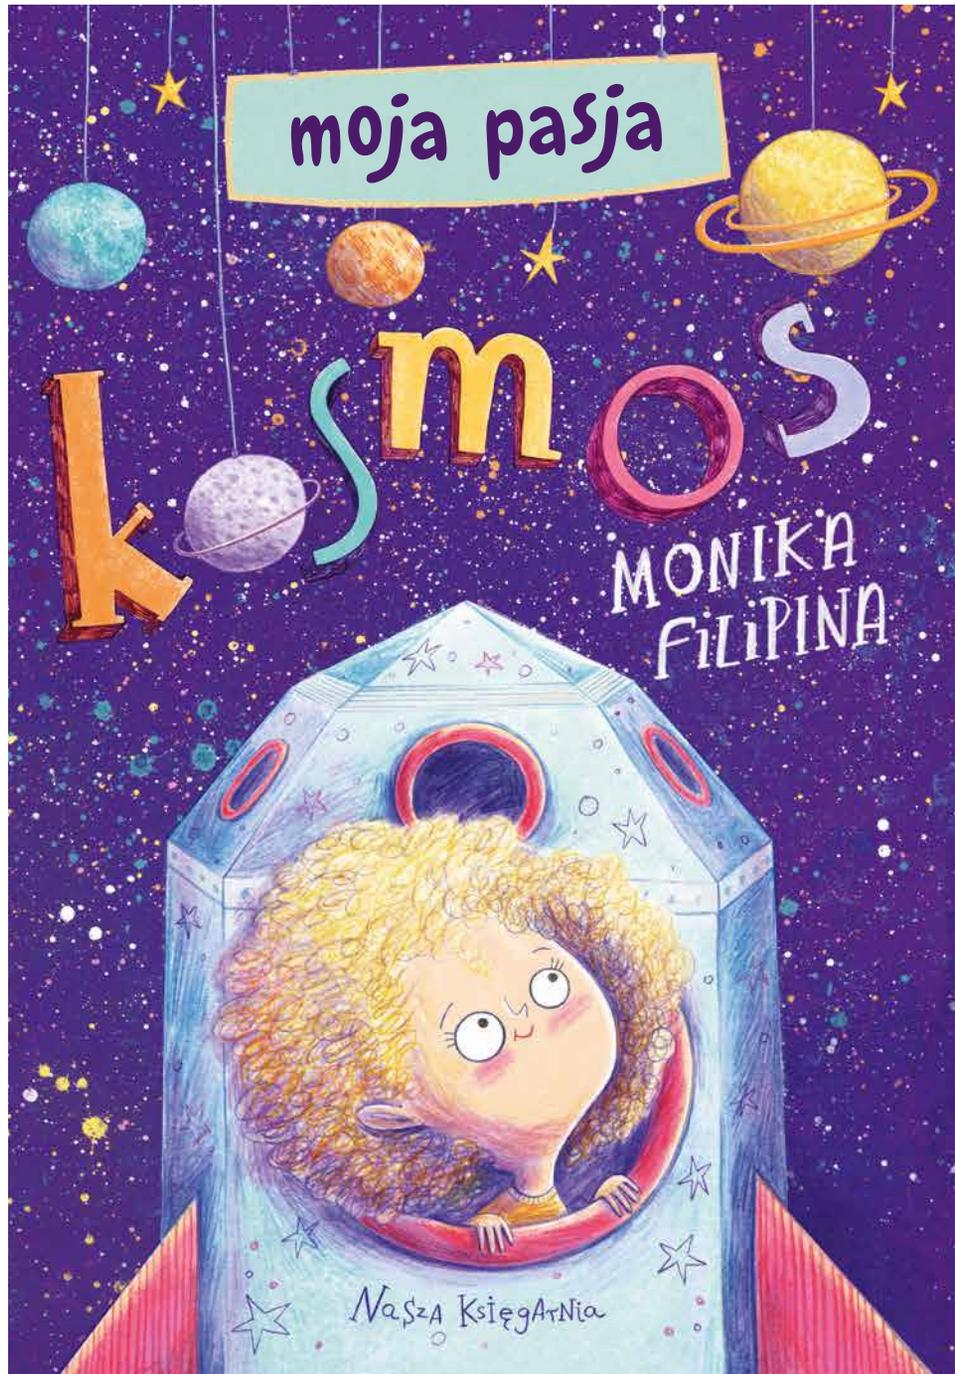

Because everyone, regardless of their gender, has the **right to make the same plans** for their future.

Firefighters drive fantastic vehicles and put out fires – we all know this! But when they're not doing that, they're not exactly lazing around – **they have many more tasks!** They help people during floods and road accidents, they organise search missions when someone goes missing (for example, in a forest, in the mountains or under rubble), and they also provide professional first aid. As well as all this, they exercise all the time to keep fit – **they're really very busy!**

My Passion. The Cosmos

Author and illustrator: Monika Filipina

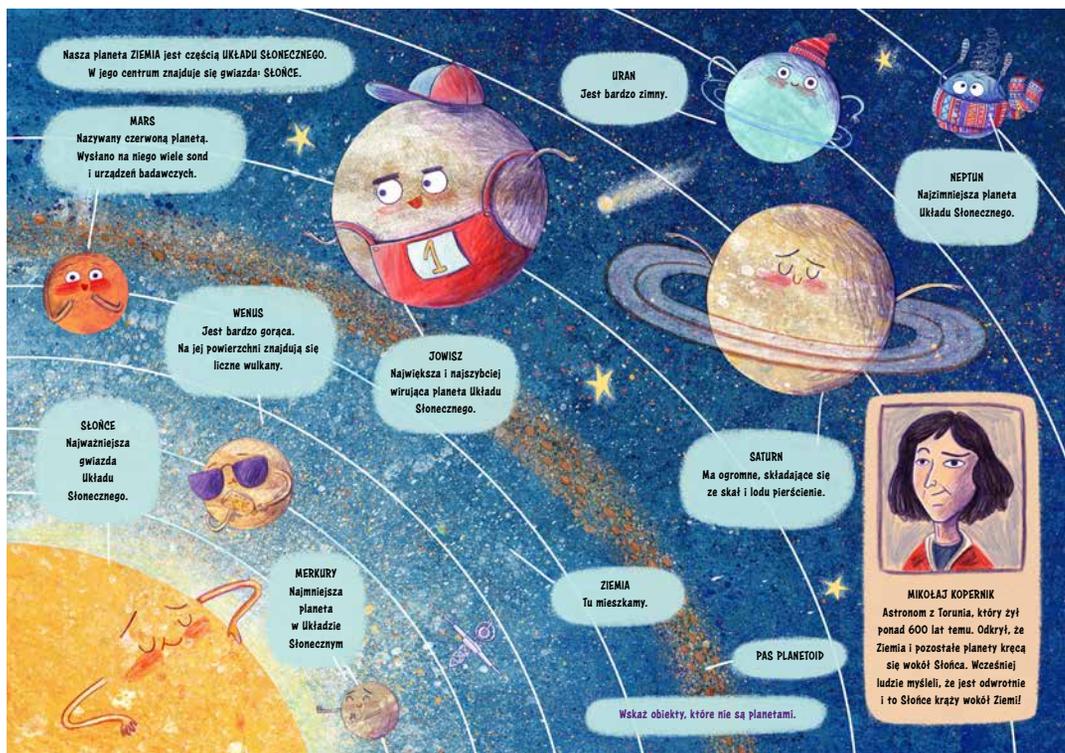

Mila and Stan are fascinated by the cosmos. They both like to visit the planetarium and the astronomical observatory – special places where you can observe stars and planets. They have learned about the **Solar System** by using special tools to watch the sky with and by attending special shows.

They secretly dream about **going into outer space** one day! So along with our two protagonists we will try on a special spacesuit and check how demanding an astronaut's training is. We will also take a peek into the International Space Station to understand what being weightless is like. Of course we will also build our own space rocket!

Children are very curious about the world and have a lot of different hobbies. “My Passion” is a series that encourages young readers to explore what they’re really interested in. Through the book, young readers will be able to deepen their knowledge and **learn about other interesting passions.**

A beautifully illustrated book that you can enjoy over and over again as you **find new details** each time!
